Subject: Loggins Corner-Kroger store

I have been reading with interest the discussions around the need for a traffic light at the intersection of US 129 and Old Pendergrass Road. I wanted to express my concerns about shopping at a location where it is both convenient and safe to travel to and from the grocery store. While cost and selection are very important factors in selecting a grocery store, they are a distant second to safety in getting to and from the store. Even though we have been anxiously awaiting the opening of this much needed store, we would rather travel the extra distance (10 miles one way) to shop at the competitor's store rather than place ourselves in danger of being in a traffic accident at the US 129 and Old Pendergrass Road. It is plain and obvious to me that a traffic light is needed and if it is obvious to me then it should surely be obvious to the planning group and to the store manager. This is not meant as any kind of a threat, it is rather a plea to do whatever it takes to install a much needed traffic light at the intersection to insure that customers can feel safe in their trip to the proposed store.

Kindest regards,
