Dave,

Since you are keeping track of the intersection issue here, just thought you would want to know that we have just witnessed another terrible wreck about 5 mins. ago! It flipped a truck which rolled several times before landing in the ditch in front of Beef O'Brady's.

Subject: Loggins Corners website - update
Importance: High

Folks:

The issue of installing a new traffic signal at the main intersection is so critical that I've added a new Page to the Loggins Corners website: Traffic Signal Project.

I've added links on this page to key messages concerning research I've been doing. I'll add new messages as they become available. I've also asked the Quad Cities planning folks to send me a copy of the GDOT application for the new signal. As soon as I obtain this document, I'll post it to the website.

Also, I've added a box at the bottom of the Home Page that allows visitors to sign up for an e-newsletter. Periodically publishing an e-newsletter that contain info on Loggins Corners news, announcements, special in your store and coupons will be a great way to help make your sales grow!

Looks like the China Panda will be opening soon and the nail salon is coming along.

If you have any comments or questions, just let me know!

Thanks,
Dave Rosselle
